Air Quality Forecast for the UK

Issued by the Met Office

Today: Wet conditions across much of the UK today will help to keep air pollution at Low levels.

Tomorrow: Air pollution levels will generally be Low tomorrow, but more settled conditions and light winds may see isolated pockets of Moderate air pollution in places.

Outlook: Generally Low air pollution levels are expected, especially in western parts where periods of rain and more unsettled weather are likely. Southeastern areas of the UK generally seeing the finest weather, and could see isolated pockets of Moderate air pollution at times.
